

Local Wellness Policy: Triennial Assessment Report

This tool is intended to be a guide based on current regulations. It is the responsibility of the LEA to stay abreast of any updates and changes to the regulations and to implement any changes in local policies.

Background Information

To be compliant with the USDA final rule, at least once every three years, the district will assess the Local Wellness Policy. However, Local Education Agencies (LEAs) may assess their policy more frequently if they wish.

Purpose

The district should designate a representative to lead the wellness policy assessment. This representative must publicly invite members from the community, schools, and the district to participate. Members of the district wellness committee who are completing the assessment of the Local Wellness Policy may use this template. Section 3 of this template should be copied and completed for each school.

This template contains the three required components of the triennial assessment:

1. the extent to which the wellness policy compares to model wellness policies
2. progress made in attaining the goals of the wellness policy
3. the extent to which schools under the jurisdiction of the districts are complying with the district Wellness Policy

Results

A copy of the assessment must be made available to the public. How the assessment is made available is the decision of the LEA. (i.e., district website, local newspaper, etc.). The triennial assessment summary and the assessment details (e.g., WellSAT 3.0 report) must be shared.

Recordkeeping for the Child Nutrition Program Administrative Review:

- a copy of the most recent triennial assessment, along with supporting documentation
- a copy of the current and previous board approval of the policy
- documentation demonstrating the policy has been made available to the public
- documentation of efforts to review and update the policy, including who was involved and how the district made stakeholders aware of their ability to participate (i.e., meeting agendas and sign-in sheets)

Section 1. Comparison to Model School Wellness Policies

Complete a Triennial Assessment Tool ([WellSAT3.0 assessment tool](#), or other customized assessment tool) and keep a copy of the results on file for at least three full school years plus the current year. It will be reviewed during the next administrative review of your Child Nutrition program.

Indicate which model wellness policy language was used for comparison:

- Alliance for a Healthier Generation Model Policy
- WellSAT 3.0 example policy language (Print the WellSat report and include with your assessment)
- Other (please specify): _____

Describe how your wellness policy compares to the model wellness policy. (May use a bullet format to list comparisons)
